WHY CELEBRATE PASSOVER AT THE UNITARIAN UNIVERSALIST CHURCH OF THE NORTH HILLS?
Tassi Bisers

It's been four years since we have celebrated a Seder here, the feast that commemorates the Jewish Passover and the Israelites’ exodus from Egyptian slavery. So much has happened in our world. This ritual, while not our own, has even more to teach us - that we are the stories we tell about ourselves.

AN INTRODUCTION TO OUR MINISTERIAL CANDIDATE

Today kicks off candidating week for our new ministerial candidate. After months of wondering who the search team would choose, here is your chance to hear them. The sermon title and description will be available in the E-News and on the website later in the month but for now just save the date!
It may sound overly dramatic when we hear Unitarian Universalism is reinventing itself. Longtime UUs have seen changes come and go, so the natural response is to believe whatever the heck is going on these days will pass, too.

Except it won't. Sparked three years ago by the public revelation of denominational hiring practices favoring white, male ministers, there's a new fire in our collective belly - a taking stock of our progressive-minded claims for inclusivity, all the while ignoring, even oppressing the diversity in our very midst.

This reckoning is taking many forms, perhaps the most immediate being an overhaul of the hiring practices that served as a catalyst. What a joy to watch as those who have for so long been marginalized - persons of color; anyone not cisgender (those identifying with the sex they were given at birth); persons who are economically distressed; those without "formal" education; folks who reject all labels or embrace all labels - as they lead with wholeness and integrity.

If not always understanding and cooperation.

But this spiritual and organizational soul-searching comes at great price, for decentering whiteness means those of us who identify as white must be willing to listen to the lived stories of those whose voices have been muted, even silenced. It means open hearts and minds. It means managing our own anger, guilt, shame, defensiveness, judgmentalism or whatever else gets dredged up in the process.

As with Transcendentalism in the early-mid 1800s, and Humanism a century later, this denomination-wide phenomenon will no doubt cause us to challenge many of the long standing assumptions, statements of belief and self-narratives from the past and present. It's not just about swapping leaders; it's about examining what some would call "...a history marred by the errors of individualism, exceptionalism, and anti-authoritarianism". (Taken from the description of turning point: essays on a new Unitarian Universalism, Fred Muir, editor.)

If all this has you riled and/or confused, welcome to the crowd. If it feels like the Unitarian Universalist Association you've known is fading, it's because in some fundamental ways, that's exactly what's happening. We need to be clear-eyed about that.

But, rocky as the path surely is, it leads somewhere. It leads to a place we've never been before, but have glimpsed now and then. As the song counsels, we may not yet have a name for that promised land, but we'll get there. Oh yes, we will.

Don

Intercom Changes - In Case you missed the email……

I am sure you have noticed all the recent changes in how and where we communicate to UUCNH members, friends, visitors and the world. For decades, the Intercom was the primary source of information for what was happening at UUCNH. When I started here about 15 years ago, the Intercom was a four-sided snail-mailed newsletter mailed to members and friends. Our last Intercom, when printed, was a whopping 24 pages.

Since our early days, we have added many new modes of communicating – we have the recently redesigned UUCNH website (thank you, Ministerial Search Team (MST)!). We have our weekly E-News. We have periodic email blasts. We have printed announcements available on Sunday morning. We have the announcement screen in Friendship Hall and a few select announcements appearing on the West room monitors before and after Sunday services. We have a UUCNH community page on Facebook for events and other church group communications.

After analyzing all of our current information sources and routes, we found that much information on groups and events is repeated in multiple places. Each of these repeated announcements and entries adds complexity to spreading the word and provides opportunity for errors and omissions. The Board thought we should simplify and streamline our communications so members and friends can easily connect to information about church events and groups. The Board feels that our UUCNH website should be the primary and comprehensive source of information for our members, friends, visitors and those interested in finding a spiritual home.

After the Intercom team contacted church groups in the previous month’s Intercom and reviewed each team’s practices and needs, the Board decided to streamline the Intercom starting in April. The new and improved Intercom will be a true newsletter – containing upcoming events, messages from the minister and the Board president, details on the next month’s Sunday services as well as announcements of special events, urgent matters and areas of church focus. Information about Fellowship and other groups will be found on the church website and calendar with event details found in the E-News, announcements and/or sent to group members via email as determined by the leader or group. The location of each group’s information will be available on the last pages of the new Intercom. The handful of individuals who currently receive a printed copy of the Intercom will receive a hard copy of the new Intercom with the current Lifespan Faith Development Program Guide booklet to provide information regarding church Fellowship and other groups.

We hope these planned changes will simplify communications for our members and friends and make the Intercom a more relevant reference source for upcoming events. These changes will also allow our office administrator to further support our staff (both paid and volunteer).

We appreciate your patience as we work to refine our communications. We hope you find the new Intercom to be a valuable reference for the upcoming month’s events and happenings.

My Last Dollar or My First?

Where does generosity come from? And isn't it funny how UU Stewardship types always default to talking about generosity?

Okay, to the first question - think about these bullet points:

- Experience the generosity of others by receiving care from parents and other significant adults.
- Spending time in settings--home, church, school--where caring and generosity are invited and respected.
- Being guided by religious beliefs, or other “frameworks of consciousness”, that encourage care, compassion, and generosity.
- Interact with mentors and role models who both practice and teach generosity.

These points were borrowed from a UUA website article on predicting generosity from the ways in which people experience it themselves. I don't know how many of you grew up in a Presbyterian church, but I remember boxes of numbered envelopes that would represent weekly giving for a year at a time. While I didn't equate that in my mind with generosity, looking at that practice from the perspective of memory, I realize that those envelopes were an example of structural generosity - a way of encouraging weekly giving of any amount to benefit the church involved. I was (a) experiencing generosity, (b) while spending time in a family and church that practiced generosity, (c) guided by religious frameworks for generosity, and (d) with role models (my parents) who practiced and taught generosity. From this, you can see that this experience could have predicted my own likelihood to “give”.

I disagree with others who look at the trappings of our culture and try to guess that if person A drives a nice car, wears a nice watch, or travels more than I do, that they should be “giving” proportionately more to our shared vision of a religion. My parents drove sensible cars, but nothing high-end by the standards of the 1970’s, ’80’s, or ’90’s, they did not travel exorbitantly (weekend camping was a major outing) until their “golden years”, and yet they gave what might seem a proportionately high amount of their family finances to church, political organizations and charities. From this I draw my concepts of giving.

In our modern world there are high demands on our dollars: utilities, homes, food, entertainment, communications (phones, internet, etc.), and creature comforts, before the numbered envelopes come into question. But I encourage you to consider generosity from the perspective of goal-directed saving: give 10 percent to yourself first, and then pay others. Give a percentage to UUCNH first, and then consider where to apportion next. This may sound crazy, but how else to build cathedrals for our shared visions, and similarly, how else to build cathedrals to our personal visions.

I shouldn't consider satisfying my goals from my last dollar, but rather from my first. Give to myself first, because I am my first, best reality, I am that cathedral that I build. This is why paychecks pay to a retirement plan before they pay to your entertainment creditors: because your future needs can best be satisfied by drawing from the stream earlier on, rather than waiting for the dribs that remain. Similarly, consider giving to our shared vision from your first dollar. Just as the numbered envelopes led to a sense of constant giving, a structured saving and giving method can be a predictor for future retirement and church success - the two can go hand in hand. Stop looking in the parking lot for signs of what folks should be giving, but look at how people present themselves as mentors, role models, to find the “predictors”. That is effectively where my generosity comes from: my role models, my mentors. My parents were role models and mentors: that is the ultimate generosity, giving of one's energy rather than the dribs that remain in the pocketbook.

MESSAGE FROM BELLWOOD BOARD

Dear UUCNH Members, Friends, and Families,

As some of you may know, after 43 years of inspiring and teaching children at Bellwood Preschool, Miss Linda Moser will be retiring after the 2018/2019 school year. To express our deep gratitude for all she has done, the Bellwood Board has created two opportunities to thank Miss Linda.

First, we are compiling a book of messages and memories from Bellwood alumni, parents, UUCNH Members, Friends and Families. This can be a specific memory from the child who attended Bellwood preschool or simply a message about Miss Linda's influence, warmth, guidance, love and joy. Your messages can include photographs or drawings, as well. You can submit these memories by sending them HERE, by dropping off your memories at the Bellwood office, or mailing them to Bellwood Preschool, Attn: Brandon Neiman, 2359 W. Ingomar Road, Pittsburgh, PA 15237. Please include names and submit all memories by April 15th.

Secondly, we hope to give Miss Linda a monetary gift for her retirement, while at the same time thanking her for all her years of service, dedication, and lives she’s touched along the way. Miss Linda hopes to join her sister and friends in traveling adventures and we would love to help her celebrate! This is a private gift and is not tax deductible. Our hope is to keep it as a “Surprise” for Miss Linda and then present it to her at the end of the school year.

Here’s how you can contribute toward Miss Linda’s monetary gift:

- Please use this PayPal Money Pool site by CLICKING HERE

- Or you could: Write a check made payable to ‘Kate Campbell’ with a notation on the check: ‘Miss Linda’s Contribution’. Check could be placed in the Bellwood Office with attention: Attn: Kate Campbell or mail to Bellwood Preschool at 2359 W. Ingomar Road, Pittsburgh, PA 15237

Thank you so much for helping us show Miss Linda how much she has meant to Bellwood Preschool and to all of us.
